

# Vehicle Inspection Report

Vehicle Inspection Report Host Dashboard

## Gain greater insight into your fleet's maintenance needs with paperless driver vehicle inspection reports

Processing and storing paper driver vehicle inspection reports (DVIRs) costs your company time and money. Our Vehicle Inspection Report (VIR) application eliminates paper DVIRs and makes it easier for drivers to complete accurate vehicle and trailer inspection reports, for both US and Canada. Your fleet managers and drivers can access stored reports at any time and are alerted immediately to any DVIRs with unresolved defects. VIR saves time and money and can improve your company's compliance, safety, and defect resolution process.

### Using Vehicle Inspection Report means less work for you.

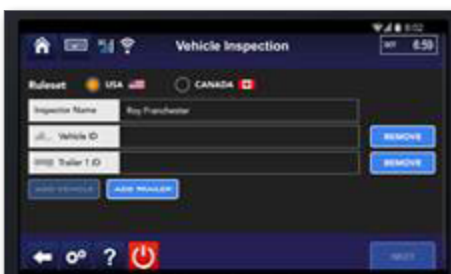

#### How VIR Works

Vehicle Inspection Report provides a simple and affordable closed-loop process for completing vehicle and trailer inspection reports. Your drivers can access VIR as a standalone application or through Hours of Service. With regular prompts and alerts from VIR, your drivers stay compliant with all required inspection reports for both their tractors and trailers. They can easily complete inspections, make comments on defects, review and sign off on repairs, and submit the completed reports to the host system.

#### How VIR Works for you

By keeping a history of your inspection reports for any required time period, VIR allows you and your drivers to access the information you need to make sure you are resolving defects or missing VIR reports. The ability to export and save reports forever allows fleets to further analyze issues with enhanced reports to stay on top of compliance requirements.

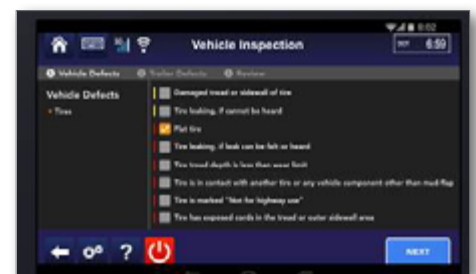

With VIR you can search quickly for information to review, edit, or print. With the VIR host dashboard overview, you can identify issues quickly, set up host alerts and emails, and control user access.

Driver Response Request

Vehicle Inspection Form

Driver Reminder Alert

# Say good-bye to paper driver vehicle inspection reports. Save time, money, and unnecessary errors.

## Features

- Stores your vehicle and trailer inspection reports (VIRs) electronically on a Omnitracs-hosted application that you can access 24/7/365 with any Internet connection.
- Keeps a history of your inspection reports for 3 months in the US, and 6 months in Canada.
- Maintains your current VIRs on mobile units.
- Displays the number of VIRs with defects and shows total units without a recorded VIR in the past 24 hours on the host's executive dashboard.
- Sends email alerts when VIRs with defects are submitted for tractors and trailers.
- Notifies drivers when submitted VIRs are updated and closed by your maintenance department.
- Focuses on the critical inspection elements and requirements identified by the Federal Motor Carrier Safety Administration (FMCSA), and Canadian MOT.
- Records feedback and remediation history on VIRs with identified defects.
- Provides separate inspection forms for trailer and vehicle.
- Includes relevant time, location, driver, and vehicle data on each VIR.
- Allows searching of VIRs by equipment type, driver, open/closed status, and date range, to name a few of the many search and filter functions.
- Allows printing or exporting of VIRs, as well as reports.
- Lets you control who can view, update, and assign VIRs.
- Allows Specific maintenance role for repair shops.
- Allows VIR access through Hours of Service interface or as a stand-alone application.
- Owner operators have the ability to close their own reports

## Benefits

- Saves your fleet money by eliminating paper VIRs.
- Saves your fleet time with easy access to centralized information and the ability to search, edit, and print information quickly, as well as save and email reports.
- Easily find the information you need with customizable report configuration.
- Reduces errors and increases accuracy through simple prompts and error-detection logic.
- Improves your defect resolution process, compliance, and driver safety with easy-to-use reporting and alerting capabilities.
- Allows your fleet to identify issues, such as missing VIRs, quickly with the host dashboard view.
- Allows you to control user access for maximum security.
- Improves accuracy of audit trails by providing relevant time, location, driver, and vehicle data on each VIR.

## Getting More from Your Technology Investment

The Omnitracs Alliance Program facilitates integration of Omnitracs solutions with other leading companies that provide complementary technologies and services. This program taps into the power of integration in order to best meet the needs of our shared customers.

We offer Omnitracs Professional Services to all sizes of fleets to help you utilize our applications and our partners' applications in the most efficient way. Our assessment, integration, custom development and programming, training, business intelligence, and predictive modeling services deliver practical solutions. This critical information increases your productivity and efficiency, so you can both grow and differentiate your business.

The Omnitracs Services Portal provides access to a suite of web-based fleet management applications, including satellite mapping. Data from the Services Portal can be integrated into your existing enterprise systems.

## About Omnitracs, LLC

Omnitracs, LLC is a global pioneer of fleet management, routing and predictive analytics solutions for private and for-hire fleets. Omnitracs' nearly 1,000 employees deliver software-as-a-service-based solutions to help more than 50,000 private and for-hire fleet customers manage nearly 1,500,000 mobile assets in more than 70 countries. The company pioneered the use of commercial vehicle telematics over 25 years ago and serves today as a powerhouse of innovative, intuitive technologies. Omnitracs transforms the transportation industry through technology and insight, featuring best-in-class solutions for compliance, safety and security, productivity, telematics and tracking, transportation management (TMS), planning and delivery, data and analytics, and professional services.

Learn how you can use our applications, platforms, and services to reduce costs, increase profitability, and stay competitive. Visit [www.omnitracs.com](http://www.omnitracs.com) and let us show you how you can save time and money.
